Questions or Ideas:

- **Question: Hail found data discrepancy in HCAHPs question numbering.**
 - Is the digital data appendix numbering correct for the HCAHPs survey questions? Because the questions on the handout we received in Tally does not line up with the digital version. For example, question 24 on the handout says *“In general, how would you rate your overall health?”* and the digital version says that question 24 asks *“CMS_24 – Would you recommend this hospital to your friends and family?”*
 - *Email Jessica about this ^*
