

Name: Gus Lipkin

Team: The Three Musketeers

Use the following table to evaluate the effort that you and your teammates put forth thus far in your project since the previous peer evaluation.

For the % effort columns, the total effort (for each column) should add up to 100%, meaning that if you had 1 team member that did not participate in a particular aspect, but the 3 remaining team members all worked equally, the 3 team members who all worked equally should each receive 33.3% and the team member who did nothing should receive a 0% for that aspect.

For the grade column, enter the grade (A, A-, B+, B, B-, C, etc.) that you would give each team member (including yourself) for the project overall at this point in time.

Please note that your feedback is confidential and will not be explicitly shared with your teammates.

| Team Member | % Effort since | Grade you would assign based on professionalism |
|-----------------|----------------|---|
| Hailey Skoglund | 40% | A |
| Maverick Hope | 20% | C+ |
| Gus Lipkin | 40% | A |
| | 100% | |

Any other comments:

Team is good. Maverick is having trouble getting stuff done. Might be because he's unsure of what he's supposed to be doing.
