**Communication**

Briefly describe your means of communication and tools as a group (e.g. Slack, text messages, Google Docs, OneDrive, GitHub, etc.)

Our team will be communicating in person, and via text. We will be using Microsoft Teams and GitHub to share documents. We will be using Outlook emails and Microsoft Teams to communicate with our TMH sponsor. If all else fails, we have set up a series of mirrors across the state that will allow us to use smoke signals over long distances.
